DIGITUS ® **Professional**

Passive PoE wall mount box

DN-95002
EAN 4016032260257

*PoE Light!
Ideal solution
for short
distance PoE
applications.*

By using DIGITUS® Power over Ethernet products you can do without installing separate cables to supply your Ethernet devices with electricity! As most networking products need to be supplied with power, one often faces the problem that at places where you would like to mount your surveillance camera, as example, there is no outlet.

Here is the way out of this problem: The DIGITUS® PoE products help you to mount your network components wherever you want to! Then your devices will be powered over the existing network cable.

- RJ45 LAN jack
- DC jack
- PoE (RJ45) jack
- Suitable for 5.5mm DC plugs
- Connection speed: 10/100 Mbit/s
- CAT 5e patch cable
- PVC coating
- Assignment: 1/2/3/6 for data transfer, 4/5/7/8 for power supply
