1.Product Information

- Personal Internet & Intranet Storage
- Samba Server + FTP Server
- No need to install any O.S, Virus free
- Low Cost and Simple Installation
- Low Power Consumption, Low Heat Dissipation
- Serve Cross-Platform Client O.S.
- Web Browser Management User Interface
- Multi Protocol Support: TCP/IP, HTTP, SMB, FTP
- Support DHCP / Fixed IP Address
- USB2.0 High-speed data transfer rate up to 480 Mbytes
- 64/512 bytes data payload for full/high speed bulk endpoint
- Supports 8-bit/16-bit standard PIO mode interface
- USB2.0 high-speed interfaces & RJ45 for barrier-free data transfer
- Supports power down mode and USB suspend indicator

2. Product Specifications:

Network Connection Method

Available network environment, 100BASE-TX/10BASE-T, Connection type, RJ-45

Supported Protocols

TCP/IP, NBNS (Net BIOS Name Server), Microsoft Networks (CIFS/SMB), HTTP 1.0 and HTML 2.0, DHCP Server/Client (Auto detection), SNTP Client and Telnet Server

Supported Operating Systems
Microsoft Windows: 98SE, ME, 2000, XP

MAC OS X (10.3.X or above versions)

• IP Acquisition Method

Automatic (DHCP)/Manual (Static setting)

• Supported Hard Drive Specifications Ultra ATA / 133 (must be DMA compatible)

Partition Configuration

FAT32 (4GB Max File Size)

3. System requirements

Windows 98SE / 2000 / XP:

Pentium II 233MHz equivalent or higher

64 MB RAM (128 MB recommended)

USB 1.1 Port (USB 2.0 recommended)

CD-ROM drive for installation (Win 98SE only)

RJ45 network port for NDAS mode

Mac OS X:

G4 processor or higher running OS X 10.3 or higher

128 MB RAM (256 MB recommended)

USB 1.1 Port (USB 2.0 recommended)

RJ45 network port for NDAS mode

4. Product Connecting

1) Connect DN-7023 to your computer

2) Connect mobile memorizer to your DN-7023

5. Configuring DN-7023

Checking TCP/IP Setting on PC

Bring up the properties of the "My Network Places" (Windows

XP).

- 1). Double click the "My Computer" icon on your desktop.
- 2). Right click "My Network Places" and select "Properties"

3) Right click "Local Area Connection" and select "Properties"

Local Conn	Area Connection ected, Firewalled
<u> </u>	Disable
	Status
	Repair
	Bridge Connections
	Create Shortcut
	Delete
	Rename
	Properties

4) The following screen will appear, select "Internet Protocol

(TCP/IP)" then click on the <Properties> button

5) Follow the step as below to configuring your TCP/IP settings.

• Using Web Control Utility

 Open your Web browser and type "http://storage" or "http://169.254.0.1" into the URL address box and then press <Enter>.

IP Config

Here you can set the IP configuration (Automatic IP or Static IP) as below:

network	Julay	series	
atus Config		IP Config	
aintenance	 Automatic IP 		
B Server P Server	○ Static IP as below		
sk Utility	IP	169.254.0.1	
	SubnetMask	255.255.0.0	
	Gateway	169.254.0.1	
	Primary DNS	169.254.0.1	
	Secondary DNS	0.0.0.0	

Maintenance

Firmware Upload: Here you can update the new firmware for your DN-7023.

System Reboot: Click Reboot to have the device perform a software restart.

Factory Defaults: You can Press "Reset" here then refresh this page by pressing "Refresh button" on IE browser, or reboot the DN-7023 to recall all settings back to factory default status.

network	Storage series
Status IP Config	Firmware Upload
Maintenance	Select new firmware to upload.
SMB Server FTP Server	Please don't turn off the power and close the web browser when the firmware is uploading [例页] Upload
Disk Utility	System Reboot
	Click the Reboot button to have the device perform a software restart. The SYSTEM LED will blinks as the device restarts and then remain on if the restarts is successful. Please wait about a minute before refreshing your browser before logging in again. Reboot

Disk Utility

If you have installed a new disk in the DN-7023, you must go to "Disk Utility" for creating a new Partition and doing format for the hard disk.

Status IP Config Maintenance	Disk Utility	
SMB Server FTP Server Disk Utility	Format Disk Format Sleep Time 45 (min) Set 0 to disable, range 5- Scan Disk	60 to enable.
	2007/ 1/ 1 0: 3: 2 Scan complete 3 File(s), 2 Dir(s), Used Size=9K, 0 Error(s)	

7. Note:

- If you are installing an old hard drive and want to keep all previous data, please make sure the file system on your hard drive is FAT32. DN-7023 does not support any other file system than FAT32. Otherwise, you may need to re-format your old hard drive by DN-7023's utility
- 2) The LAN Port on the DN-7023 is Auto-MDI/MDIX, you can also connect the network cable directly to the Lan port on your computer. It is not necessary to use a crossover network cable for direct link.
- If you prefer to use a Fixed IP for your computer, please also setup a fixed IP for DN-7023.
